PROFILE

Software Engineer with 2+ years of experience building scalable systems. Passionate about high-performance backend services, data-intensive applications, and applying AI/ML technologies to solve real-world problems.

SKILLS SUMMARY

Programming Languages	Python, Kotlin, Java, JavaScript, C++
Backend Frameworks	FastAPI, Vert.x, Odoo, Node.js
Databases	PostgreSQL, MySQL, Redis, MongoDB, Neo4j, Milvus, Qdrant
Soft Skills	Analytical Thinking, Problem Solving, Communication, Teamwork

WORK EXPERIENCE

- Odoo Developer (Full-time), BESCO** September 2024 – March 2026
- GKitchen**: Integrated Odoo ERP with e-commerce platforms (**Grab** and **Haravan**), enabling synchronized inventory (stock), order processing, delivery management, and end-to-end sales workflows.
 - PGI**: Designed and developed promotion and campaign management modules, supporting dynamic pricing, discount rules, and sales optimization.
 - Viet Thuong Music**: Integrated Odoo ERP with **Haravan** (e-commerce), **Sepay** (payment gateway), and **ZNS** (notification service) to automate order fulfillment, stock updates, payments, and customer notifications.

- Software Engineer(Full-time), Momo** Aug 2025 – Present
- OneLink System**: Maintained and optimized high-throughput deep-linking infrastructure for ad, referral, and marketing traffic; led data migrations that boosted app-open success rates from 25% to 75% and secured reliable downstream analytics.
 - Promotion Platform**: Engineered high-concurrency backend services to power the Mega Campaign 2026, seamlessly handling over 100,000 early-bird users during peak traffic.
 - PII Scanner**: Benchmarked and fine-tuned machine learning models for PII detection, elevating accuracy from 54% to 90% on sensitive name and address data.

RESEARCH EXPERIENCE

- Research Engineer (Remote), IAAIR** Dec 2025 – March 2026
- Knowledge Access & Retrieval**: Under the supervision of **Dr. Srikanth Thudumu** and in collaboration with **To64**, designed, implemented, monitored and evaluated a hybrid graph+vector RAG system, built cross-modal retrieval and hybrid search flows for scientific queries, improving contextual reasoning.

PUBLICATIONS

- Hoa Dao et al. “**HGCT: Enhancing Temporal Knowledge Graph Reasoning Through Extrapolated Historical Fact Extraction**”. In: *Knowledge-Based Systems* (2025). Q1 Journal.

LANGUAGES

English IELTS 6.5 (Dec 2024)

EDUCATION

2020 - 2024 **University of Science - Ho Chi Minh National University, Vietnam**
Bachelor of Information Technology (GPA: 3.7/4)
